Welcome to the Dr. Javaune Adams-Gaston Autumn 2019 Second-year Transformational Experience Program (STEP) Expo!

The Second-year Transformational Experience Program (STEP) Expo provides an opportunity for STEP students to showcase their accomplishments and to reflect upon the impact of their STEP experience.

A partnership between the Office of Academic Affairs and the Office of Student Life, STEP focuses on both student engagement and student development in an effort to enhance second-year learning outcomes. Through engagement with faculty mentors, students have the opportunity to complete a transformational experience and to be exposed to activities designed for enhancing personal, professional, and academic success. Building upon national key variables related to second-year retention, students live on campus, participate in co-curricular programs and activities, learn through peer interaction, and are guided by faculty mentors.

Education beyond the classroom is foundational to STEP. It was created as an extension of Ohio State’s commitment to the extraordinary student experience. Students work with faculty mentors to develop proposals to engage in a transformational experience in one of six categories: internships, leadership, education abroad, service-learning, undergraduate research, or artistic and creative endeavors.

Today, you are immersed in the excitement as these students publicly share their STEP experiences. We hope you enjoy interacting with Ohio State’s STEP students. Please take the time to learn more about the influence STEP has had on our students’ personal growth and academic success.
